

Report of Operative G T Purdy
Hall-Mills

GTP/Gibson

Sept. 19th, 1926

Operative went to Mr. Watson's office in New Brunswick this A.M. and waited until 10 o'clock. Then proceeded to the vicinity of Gillins Road House where a number of inquiries were made in an effort to locate some more old timers who might be able to furnish information regarding the activities of this resort during the time our Subject, Mrs. Gibson, was a frequenter there.

Also tried to locate a Mrs. Zulic, who is supposed to be living around French or Summerset Streets near the brook. Could not find anyone in this vicinity who knows or ever heard of this party.

Operative spoke to several old timers in the vicinity of Gillins Road House, who gave the information that they used to have different girls there every week. No one could remember Subject as Anna King.

Operative made several attempts to see Mr. Julius Erling, who conducts a fish market at 222 French Street and resides in the adjoining house, but he was not in when I called.

Respectfully submitted:

G.T.P.
